

Australian Standard™

**Gas appliance standards—Definitions  
and calculations**

This Australian Standard was prepared by Committee AG-001, Gas appliances. It was approved on behalf of the Council of Standards Australia on 12 May 2004. It was published on 19 July 2004.

---

The following are represented on Committee AG-001:

AGA (Network Operators)  
AGA Certification Services  
Appliance and Component Testing  
Australian Liquefied Petroleum Gas Association Ltd  
CSIRO Energy Technology  
Committee AG-001-03  
Consumers' Federation of Australia  
Energy Retailers Association of Australia  
Gas Appliance Manufacturers Association of Australia  
Gas Technical Regulators Committee

---

### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about Standards can be found by visiting the Standards Web Shop at [www.standards.com.au](http://www.standards.com.au) and looking up the relevant Standard in the on-line catalogue.

Alternatively, the printed Catalogue provides information current at 1 January each year, and the monthly magazine, *The Global Standard*, has a full listing of revisions and amendments published each month.

Australian Standards™ and other products and services developed by Standards Australia are published and distributed under contract by SAI Global, which operates the Standards Web Shop.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at [mail@standards.org.au](mailto:mail@standards.org.au), or write to the Chief Executive, Standards Australia International Ltd, GPO Box 5420, Sydney, NSW 2001.

## PREFACE

This Standard was prepared by the Standards Australia Committee AG-001, Gas appliances, to supersede AG 701, *Glossary of terms used in the AGA Codes*.

The objective of this Standard is to assist manufacturers, designers, regulatory authorities, testing laboratories and similar organizations with the interpretation of terminology used in the various gas appliance Standards and provides details of calculations used within these Standards.

The principal difference between this edition and AG 701:1977, is the incorporation of all amendments outlined in AGA Technical Bulletins

AS 5601/AG 601, *Gas Installations*, contains further definitions that may apply to gas appliances.

The terms 'normative' and 'informative' have been used in this Standard to define the application of the appendix to which they apply. A 'normative' appendix is an integral part of a Standard, whereas an 'informative' appendix is only for information and guidance.

Statements expressed in mandatory terms in notes to tables and figures are deemed to be requirements of this Standard.

## CONTENTS

	<i>Page</i>
SECTION 1 DEFINITIONS.....	4
SECTION 2 CALCULATIONS AND DERIVATIONS	
2.1 HEATING VALUE CALCULATION FROM GAS ANALYSIS.....	28
2.2 RELATIVE DENSITY CALCULATION FROM GAS ANALYSIS.....	31
2.3 NOTES ON THE DERIVATION OF THE DETERMINED GAS CONSUMPTION CALCULATION .....	33
2.4 METER VOLUME CORRECTION FACTORS.....	34
APPENDICES	
A LIST OF REFERENCED DOCUMENTS .....	36
B TEST GASES .....	37
