AS/NZS 4944:2006

Australian/New Zealand Standard™

## Gas meters—In-service compliance testing

## **AS/NZS 4944:2006**

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee EL-011, Electricity Metering Equipment. It was approved on behalf of the Council of Standards Australia on 30 November 2005 and on behalf of the Council of Standards New Zealand on 9 December 2005.

This Standard was published on 3 January 2006.

---

The following are represented on Committee EL-011:

Australian Chamber of Commerce and Industry  
Australian Electrical and Electronic Manufacturers Association  
Electrical Regulatory Authorities Council  
Electricity Engineers Association (New Zealand)  
Energy Networks Association  
Engineers Australia  
Ministry of Economic Development (New Zealand)  
NEMMCO  
National Measurement Institute

---

### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at [www.standards.com.au](http://www.standards.com.au) or Standards New Zealand web site at [www.standards.co.nz](http://www.standards.co.nz) and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings and notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.
