THE FOLLOWING SCIENTIFIC, INDUSTRIAL AND GOVERNMENTAL ORGANIZATIONS and departments were officially represented on the committee entrusted with the preparation of this standard:

Associated Chambers of Manufactures of Australia

Australian and New Zealand Railways Conferences

Commonwealth Department of Works

Electrical and Radio Federation, Victoria

Electricity Authority of NSW

Electricity Supply Association of Australia

Copper and Brass Information Centre

This standard prepared by Committee EL/10, Overhead Line Material, was approved on behalf of the Council of the Standards Association of Australia on 26 April 1973.

The specification is intended to include the technical provisions necessary for the supply of the material herein referred to, but does not purport to comprise all the necessary provisions of a contract.

In order to keep abreast of progress Australian standards are regularly reviewed. Suggestions for improvements to published standards addressed to the Headquarters of the Association, are welcomed.

This standard was issued in draft form for public review as DR 72057.
