This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee QR/1, Quality Systems for the Project Industry. It was approved on behalf of the Council of Standards Australia on 24 December 1992 and on behalf of the Council of Standards New Zealand on 23 December 1992. It was published on 18 January 1993.

The following interests are represented on Committee QR/1:

Australian Chamber of Commerce and Industry
Australian Construction Services—Department of Administrative Services
Australian Organization for Quality
Boiler and Pressure Vessel Manufacturers Association of Australia
Construction Industry Engineering Services Group Limited
Department of Defence (Commonwealth)
Department of Employment, Vocational Education, Training and Industrial Relations, Qld
Electrical Contractors Association of Australia
Institution of Engineers Australia
Master Builders Construction and Housing Association Australia
Metal Trades Industry Association of Australia
National Construction Council
Royal Australian Institute of Architects
The Association of Consulting Engineers Australia
The WorkCover Authority New South Wales
Standards New Zealand

Additional interests participating in preparation of Standard:

A.C.T. Public Works and Services
Australian Federation of Construction Contractors
Australian Institute of Steel Construction
Association of Consulting Architects
Department of Business, Industry and Regional Development, Qld
Department of Housing, Local Government and Planning, Qld
Department of Public Works, N.S.W.
Department of Transport, Qld
University of N.S.W.—Building Research Centre
National Public Works Conference
Third party certification organizations

Review of Standards. To keep abreast of progress in industry, Joint Australian/New Zealand Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards' users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Joint Standards and related publications will be found in the Standards Australia and Standards New Zealand Catalogue of Publications; this information is supplemented each month by the magazines 'The Australian Standard' and 'Standards New Zealand', which subscribing members receive, and which give details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Joint Standards, addressed to the head office of either Standards Australia or Standards New Zealand, are welcomed. Notification of any inaccuracy or ambiguity found in a Joint Australian/New Zealand Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 92003.

PREFACE

This Guide was prepared by a Standards Australia combined Committee consisting of the Committee on Quality Systems for the Project Industry and the Subcommittee on Building and Construction Industries Quality Systems.

The preparation of this Guide follows on from the draft for public comment DR 90192 titled *Quality management systems for the building and construction industries* which was initiated in response to the 1990 Report *No Dispute* issued by the National Public Works Conference (NPWC) and the National Building and Construction Council (NBCC) Joint Working Party.

The comment received on the above draft Standard indicated instead a need for a guide for the construction industry to AS 3901/NZS 9001, AS 3902/NZS 9002 and AS 3903/NZS 9003. This was issued as draft for public comment DR 92003.

In preparing this Guide cognizance was taken of CIRIA SP 74, *Quality Management in Construction—Interpretations of BS 5750 (1987) 'Quality Systems' for the Construction Industry*; AS 2990 *Quality systems for engineering and construction projects*; CIRIA SP 55, *A Client's Guide to Quality Assurance in Construction*; BS 5750: Part 4, *Quality systems—Guide to the use of BS 5750: Parts 1, 2 and 3*; NATSPEC Section 064, *Quality System*; and QEC *Specification for Contract* Part 4 Section 5, *Quality Assurance*. Recognition is given to the contribution these documents have made to this Guide.

Users of Standards are reminded that copyright subsists in all Standards Australia and Standards New Zealand publications and software. Except where the Copyright Act allows and except where provided for below, no publications or software produced by Standards Australia or Standards New Zealand may be reproduced, stored in a retrieval system in any form or transmitted by any means without prior permission in writing from Standards Australia or Standards New Zealand. Permission may be conditional on an appropriate royalty payment. Australian requests for permission and information on commercial software royalties should be directed to the head office of Standards Australia. New Zealand requests should be directed to Standards New Zealand.

Up to 10 percent of the technical content pages of a Standard may be copied for use exclusively in-house by purchasers of the Standard without payment of a royalty or advice to Standards Australia or Standards New Zealand.

Inclusion of copyright material in computer software programs is also permitted without royalty payment provided such programs are used exclusively in-house by the creators of the programs.

Care should be taken to ensure that material used is from the current edition of the Standard and that it is updated whenever the Standard is amended or revised. The number and date of the Standard should therefore be clearly identified.

The use of material in print form or in computer software programs to be used commercially, with or without payment, or in commercial contracts is subject to the payment of a royalty. This policy may be varied by Standards Australia or Standards New Zealand at any time.

FOREWORD 5

SECTION 1 SCOPE AND GENERAL
1.1 SCOPE AND APPLICATION 6
1.2 REFERENCED DOCUMENTS 7
1.3 DEFINITIONS 8

SECTION 2 RESPONSIBILITIES AND SYSTEM SELECTION

2.1 RESPONSIBILITIES OF PURCHASER AND SUPPLIER 14
2.2 QUALITY SYSTEM SELECTION 17

SECTION 3 QUALITY SYSTEM DOCUMENTATION

3.1 INTRODUCTION 25
3.2 CONTROL OF QUALITY SYSTEM DOCUMENTS 25
3.3 TYPES OF DOCUMENTATION 25

SECTION 4 COMMENTARY ON QUALITY SYSTEM REQUIREMENTS

4.0 INTRODUCTION 34
4.1 MANAGEMENT RESPONSIBILITY 38
4.2 QUALITY SYSTEM 43
4.3 CONTRACT REVIEW 44
4.4 DESIGN CONTROL 46
4.5 DOCUMENT CONTROL 53
4.6 PURCHASING 55
4.7 PURCHASER SUPPLIED PRODUCT 57
4.8 PRODUCT IDENTIFICATION AND TRACEABILITY 58
4.9 PROCESS CONTROL 59
4.10 INSPECTION AND TESTING 62
4.11 INSPECTION, MEASURING AND TEST EQUIPMENT 67
4.12 INSPECTION AND TEST STATUS 68
4.13 CONTROL OF NONCONFORMING PRODUCT 70
4.14 CORRECTIVE ACTION 72
4.15 HANDLING, STORAGE, PACKAGING AND DELIVERY 73
4.16 QUALITY RECORDS 74
4.17 INTERNAL QUALITY AUDITS 75
4.18 TRAINING 77
4.19 SERVICING 77
4.20 STATISTICAL TECHNIQUES 79

SECTION 5 SPECIFYING QUALITY SYSTEMS IN TENDER AND CONTRACT DOCUMENTS

5.1 INTRODUCTION 82
5.2 CHECK LIST OF TENDER AND CONTRACT ACTIONS 82
5.3 MODEL CLAUSES 86
5.4 QUALITY ASSURANCE SCHEDULE 87
