Australian/New Zealand Standard™

Occupational diving operations

Part 4: Film and photographic diving

STANDARDS Australia

STANDARDS NEW ZEALAND Paerewa Aotearoa

This is a free page sample. Access the full version online.

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee SF-017, Occupational Diving. It was approved on behalf of the Council of Standards Australia on 18 August 2005 and on behalf of the Council of Standards New Zealand on 2 September 2005.
This Standard was published on 16 September 2005.

The following are represented on Committee SF-017:

Association of Diving Contractors, New Zealand
Australian Council of Trade Unions
Australian Dive Council
Australian Diver Accreditation Scheme
Australian Diving Contractors Association
Australian Industry Group
Australian Marine Sciences Association
Australian Medical Association
Australian Seafood Industry Council
CSIRO Marine Research
Department for Administrative and Information Services, South Australia
Department of Defence (Australia)
Department of Labour New Zealand
Dive Queensland
Diving Industry Training Organization (New Zealand)
Hyperbaric Engineering Industry Forum
Maritime Union of Australia
National Association of Occupational Diver Training Establishments (Australia)
New Zealand Commercial Diver Training Council
New Zealand Underwater Association
NSW Police Service
Royal New Zealand Navy
South Pacific Underwater Medicine Society
Underwater Visual Producers Association Australia
WorkCover New South Wales

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.standards.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

This Standard was issued in draft form for comment as DR 04328.

PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee SF-017, Occupational Diving.

This Standard is Part of a series of Standards for the conduct of occupational diving operations. Diving operations that fall into the scope of this sector-specific Standard may be conducted using either this Standard or AS/NZS 2299.1, *Occupational diving operations,* Part 1: *Standard operational practice.*

This Standard is based on a February 1998 draft prepared by the Underwater Visual Producers Association of Australia. Earlier versions of the draft were prepared with input from various State and Australian film, media and arts organizations.

The term ‘informative’ has been used in this Standard to define the application of the appendices to which it applies. An ‘informative’ appendix is only for information and guidance.
