AS/NZS 3750.12:1996

Australian/New Zealand Standard®

Paints for steel structures

Part 12: Alkyd/micaceous iron oxide

This is a free page sample. Access the full version online.

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee CH/3, Paints and Related Materials. It was approved on behalf of the Council of Standards Australia on 16 October 1995 and on behalf of the Council of Standards New Zealand on 6 November 1995. It was published on 5 January 1996.

The following interests are represented on Committee CH/3:

Australasian Corrosion Association

Australian Chamber of Commerce and Industry

Australian Paint Manufacturers Federation

Austroads

Building Research Association of New Zealand

Government Paint Committee

National Association of Testing Authorities, Australia

New Zealand Manufacturers' Federation

Railways of Australia Committee

Retailers Council of Australia

Surface Coatings Association, Australia

Telarc, New Zealand

Telstra, Australia

Works Consultancy Services, New Zealand

Review of Standards. To keep abreast of progress in industry, Joint Australian/New Zealand Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Joint Standards and related publications will be found in the Standards Australia and Standards New Zealand Catalogue of Publications; this information is supplemented each month by the magazines 'The Australian Standard' and 'Standards New Zealand', which subscribing members receive, and which give details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Joint Standards, addressed to the head office of either Standards Australia or Standards New Zealand, are welcomed. Notification of any inaccuracy or ambiguity found in a Joint Australian/New Zealand Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 94338.
