AS/NZS 2642.2:1994

Australian/New Zealand Standard

Polybutylene pipe systems

Part 2: Polybutylene (PB) pipe for hot and cold water applications

This is a free page sample. Access the full version online.

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee PL/3, Polybutylene Pipe Systems. It was approved on behalf of the Council of Standards Australia on 26 August 1993 and on behalf of the Council of Standards New Zealand on 26 November 1993. It was published on 17 January 1994.

The following interests are represented on Committee PL/3:

Auckland Manufacturers Association
Australian Institute of Building
Chemical Confederation of Australia
Engineering and Water Supply Department, S.A.
Housing Industry Association of Australia
Hunter Water Corporation
Melbourne Water
New Zealand Manufacturers Association
The Plastics Industry Association
Water Board, Sydney—Illawarra—Blue Mountains
Water Resources Commission, Qld

Review of Standards. To keep abreast of progress in industry, Joint Australian/New Zealand Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Joint Standards and related publications will be found in the Standards Australia and Standards New Zealand Catalogue of Publications; this information is supplemented each month by the magazines 'The Australian Standard' and 'Standards New Zealand', which subscribing members receive, and which give details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Joint Standards, addressed to the head office of either Standards Australia or Standards New Zealand, are welcomed. Notification of any inaccuracy or ambiguity found in a Joint Australian/New Zealand Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 92037.
