Australian/New Zealand Standard™

Timber—Classification into strength groups

Standards Australia

STANDARDS NEW ZEALAND
Paerewa Aotearoa

This is a free page sample. Access the full version online.

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee TM/3, Timber Grading. It was approved on behalf of the Council of Standards Australia on 7 July 2000 and on behalf of the Council of Standards New Zealand on 14 July 2000. It was published on 5 September 2000.

The following interests are represented on Committee TM/3:

Australian Timber Importers Federation
CSIRO—Building, Construction and Engineering
Curtin University of Technology
Forest and Forest Products Employment Skills
Forestry Queensland
Housing Industry Association
Master Builders Australia
National Association of Forest Industries
New Zealand Forest Research Institute
New Zealand Timber Industry Federation
New Zealand Timber Suppliers Group
Pine Australia
State Forests of New South Wales
Timber Promotion Council
Timber Research and Development Advisory Council of Queensland
University of Technology, Sydney

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Australia web site at www.standards.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia International or Standards New Zealand at the address shown on the back cover.

This Standard was issued in draft form for comment as DR 97407.
