This Australian standard was prepared by Committee MS/28, Controlled Environment. It was approved on behalf of the Council of the Standards Association of Australia on 28 June 1983 and published on 8 August 1983.

The following interests are represented on Committee MS/28:

- Australian Institute of Refrigeration, Air Conditioning and Heating
- Australian Medical Association
- Commonwealth Serum Laboratories
- Confederation of Australian Industry
- CSIRO, Australian National Animal Health Laboratory
- Department of Housing and Construction
- Department of Defence
- Department of Health, N.S.W.
- Firms and consultants specializing in equipment and design for controlled environments
- Health Commission of Victoria
- National Association of Testing Authorities, Australia
- National Biological Standards Laboratory
- National Council of Chemical and Pharmaceutical Industries
- Public Works Department, N.S.W.
- Royal Australian Institute of Architects

To keep abreast of progress in industry, Australian standards are subject to continuous review and are kept up-to-date by the issue of amendments or new editions as necessary. It is important therefore that standards users ensure that their standards are up-to-date. Full details of all SAA publications will be found in the Annual List of Australian Standards; these details are supplemented by listings in the SAA monthly journal 'The Australian Standard'. Information on the Annual List and 'The Australian Standard' may be obtained from any sales office of the Association, where details are also available of the current status of individual standards. Suggestions for improvements to published standards, addressed to the head office of the Association, are welcomed.

This standard was issued in draft form for comment as DR 82033.
