

AS 1874—2000

Reconfirmed 2018

AS 1874

Australian Standard™

**Aluminium and aluminium
alloys—Ingots and castings**

S t a n d a r d s A u s t r a l i a

This Australian Standard was prepared by Committee MT/3, Aluminium and Aluminium Alloys. It was approved on behalf of the Council of Standards Australia on 15 February 2000 and published on 12 May 2000.

The following interests are represented on Committee MT/3:

Australasian Railway Association
Australian Aluminium Council
Australian Automobile Association
Australian Chamber of Commerce and Industry
Australian Window Association
New Zealand Manufacturers Federation
Society of Automotive Engineers—Australasia
Australian Automobile Association

Additional interests participating in the preparation of this Standard:

Non-ferrous foundries
Light metal consultants

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about Standards can be found by visiting the Standards Australia web site at www.standards.com.au and looking up the relevant Standard in the on-line catalogue.

Alternatively, the printed Catalogue provides information current at 1 January each year, and the monthly magazine, *The Australian Standard*, has a full listing of revisions and amendments published each month.

We also welcome suggestions for the improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.com.au, or write to the Chief Executive, Standards Australia International Ltd, PO Box 1055, Strathfield, NSW 2135.
