EUROPEAN STANDARD

NORME EUROPÉENNE

EUROPÄISCHE NORM

EN 482

August 2006

ICS 13.040.30

Supersedes EN 482:1994

English Version

Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents

Atmosphères des lieux de travail - Exigences générales concernant les performances des modes opératoires de mesurage des agents chimiques

Arbeitsplatzatmosphäre - Allgemeine Anforderungen an die Leistungsfähigkeit von Verfahren zur Messung chemischer Arbeitsstoffe

This European Standard was approved by CEN on 7 July 2006.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

Foreword 4
1 Scope 6
2 Normative references 6
3 Terms and definitions 7
4 Classification 9
4.1 General 9
4.2 Screening measurements of time weighted average concentration 9
4.3 Screening measurements of variation of concentration in time and/or space 9
4.4 Measurements for comparison with (occupational exposure) limit values and periodic measurements 9
5 Performance requirements 10
5.1 Screening measurements of time weighted average concentration 10
5.2 Screening measurements of variation of concentration in time and/or space 10
5.3 Measurements for comparison with limit values and periodic measurements 10
5.4 Composite procedures 11
5.5 Transport and storage 11
5.6 Environmental conditions 11
5.7 Description of measuring procedure 12
5.8 Dimension of result 12
5.9 Additional requirements 12
6 Test method 12
7 Validation report 13
Annex A (informative) Measurement categories described in EN 689 and involving a combination of measurement tasks 14
A.1 Worst case measurements 14
A.2 Fixed point measurements 14
A.3 Short-term peak measurements 14
Annex B (informative) Structure of a method description 15
Annex C (informative) Calculation of uncertainty of measurement 16
C.1 General 16
C.2 Uncertainty associated with sampled air volume 16
C.2.1 Pumped sampling 16
C.2.2 Diffusive sampling 18
C.3 Uncertainty associated with sampling efficiency 18
C.3.1 Pumped sampling methods for gases and vapours 18
C.3.2 Diffusive sampling methods for vapours 18
C.3.3 Aerosol sampling methods 19
C.4 Uncertainty associated with sample storage and transportation 21
C.4.1 Sample storage 21
C.4.2 Transportation 21
C.5 Uncertainty associated with analytical recovery 21
C.5.1 Gases and vapours 21
C.5.2 Measurement of chemical agents in airborne particles 23
C.6 Uncertainty associated with analytical variability 24
C.6.1 General 24
C.6.2 Estimation using repeatability data 24
C.6.3 Estimation using within-laboratory reproducibility data 25

Foreword

This document (EN 482:2006) has been prepared by Technical Committee CEN/TC 137 “Assessment of workplace exposure to chemical and biological agents”, the secretariat of which is held by DIN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by February 2007, and conflicting national standards shall be withdrawn at the latest by February 2007.

This document supersedes EN 482:1994.

The major technical change between this European Standard and the previous edition is the revision of the method of calculating the uncertainty of a measurement procedure to comply with ENV 13005.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.
