CORRECTED

Foreword

The text of the International Standard from Technical Committee ISO/TC 176 "Quality management and quality assurance" of the International Organization for Standardization (ISO) has been taken over as an European Standard by Technical Bboard of CEN.

This European standard is a guidance document only. It provides a set of guidelines which may be used to improve performance in the field concerned.

Whether and to what extent, the individual clauses are applicable to an organization depends on a set of characteristics which are specific to that organization. These characteristics could typically include the complexity of the organization, the nature of its products, operational methods and the skills and equipment available.

It also depends on the current performance level of, and objectives set by, the organization.

It follows, that the appropriate application of this guidance document can only be determined by the organization itself.

This guidance document is not to be used to interpret the requirements of EN ISO 9001, EN ISO 9002, EN ISO 9003 or other standards. Neither this document nor its individual clauses are intended for contractual or regulatory use.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by February 1997, and conflicting national standards shall be withdrawn at the latest by February 1997.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

Endorsement notice

The text of the International Standard ISO 10007:1995 has been approved by CEN as a European Standard without any modification.

NOTE: Normative references to International Standards are listed in annex ZA (normative).
