

AS 1319—1994

Reconfirmed 2018

Australian Standard®

**Safety signs for the occupational
environment**

This Australian Standard was prepared by Committee SF/5, Industrial Warning Signs. It was approved on behalf of the Council of Standards Australia on 1 February 1994 and published on 18 April 1994.

The following interests are represented on Committee SF/5:

Australian Chamber of Commerce and Industry
Australian and New Zealand Society of Occupational Medicine
Bureau of Steel Manufacturers of Australia
Design Institute of Australia
Electricity Supply Association of Australia
National Safety Council of Australia
Occupational Health and Safety Authority, Victoria
Railways of Australia Committee
University of N.S.W.
WorkCover Authority of N.S.W.
Worksafe Australia

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 93134.
