

AS 1345—1995  
Reconfirmed 2018

Australian Standard®

---

**Identification of the contents of  
pipes, conduits and ducts**

---

This Australian Standard was prepared by Committee SF/16, Identification of Pipes. It was approved on behalf of the Council of Standards Australia on 24 November 1994 and published on 5 March 1995.

---

The following interests are represented on Committee SF/16:

Australian Chamber of Commerce and Industry  
Australian Gas Association  
Australian Institute of Petroleum  
Institute of Hospital Engineering, Australia  
Public Works Department, N.S.W.  
Society of Fire Protection Engineers  
Water Board Sydney—Illawarra—Blue Mountains

---

**Review of Australian Standards.** To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

---

*This Standard was issued in draft form for comment as DR 93250.*
