AS 1742.11:2016

AS 1742.11:2016

# **Manual of uniform traffic control devices**

## **Part 11: Parking controls**

This Australian Standard® was prepared by Committee MS-012, Road Signs and Traffic signals. It was approved on behalf of the Council of Standards Australia on 15 August 2016. This Standard was published on 24 October 2016.

---

The following are represented on Committee MS-012:

- ARRB Group—Australian Road Research Board
  - Association of Consultants in Access Australia
  - Australian Automobile Association
  - Australian Industry Group
  - Australian Motorcycle Council
  - Austroads (Representative from VicRoads)
  - Department of Lands, Planning and the Environment, NT
  - Department of Planning, Transport and Infrastructure, SA
  - Department of Territory and Municipal Services ACT
  - Department of Transport and Main Roads, Qld
  - Institute of Public Works Engineering Australasia
  - Main Roads Western Australia
  - Rail Industry Safety and Standards Board
  - Roadmarking Industry Association of Australia
  - Roads and Maritime Services, NSW
- 

This Standard was issued in draft form for comment as DR AS 1742.11:2015.

Standards Australia wishes to acknowledge the participation of the expert individuals that contributed to the development of this Standard through their representation on the Committee and through the public comment period.

---

### **Keeping Standards up-to-date**

Australian Standards® are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Australian Standards, drafts, amendments and new projects can be found by visiting **[www.standards.org.au](http://www.standards.org.au)**

Standards Australia welcomes suggestions for improvements, and encourages readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at **[mail@standards.org.au](mailto:mail@standards.org.au)**, or write to Standards Australia, GPO Box 476, Sydney, NSW 2001.

## PREFACE

This Standard was prepared by the Standards Australia Committee MS-012, Road Signs and Traffic Signals, to supersede AS 1742.11—1999. It is one in a series of fourteen Standards which together form the *Manual of uniform traffic control devices*. The series comprises the following Standards:

### AS

1742	Manual of uniform traffic control devices
1742.1	Part 1: General introduction and index of signs
1742.2	Part 2: Traffic control devices for general use
1742.3	Part 3: Traffic control devices for works on roads
1742.4	Part 4: Speed controls
1742.5	Part 5: Street name and community facility name signs
1742.6	Part 6: Service and tourist signs for motorists
1742.7	Part 7: Railway crossings
1742.9	Part 9: Bicycle facilities
1742.10	Part 10: Pedestrian control and protection
1742.11	Part 11: Parking controls (this Standard)
1742.12	Part 12: Bus, transit, tram and truck lanes
1742.13	Part 13: Local area traffic management
1742.14	Part 14: Traffic signals
1742.15	Part 15: Direction signs, information signs and route numbering

This edition provides a general update to the 1999 edition, taking account of the revised fonts in AS 1744:2015, *Standard alphabets for road signs*, and relevant aspects of the Australian Road Rules.

The relationship between Australian Standards and publications produced by Austroads should be noted. Australian Standards provide specifications and procedures that ensure that products and services are safe and reliable, and consistently perform the way they are intended. Austroads provides guidance documents that deal with the design, construction maintenance and operation of the road network. Austroads documents are also used by road authorities in New Zealand.

In cases of similar subject matter, this is dealt with across both sets of documents. Where this occurs, each document aims to provide information that is consistent, complimentary and supportive of the other.

The terms ‘normative’ and ‘informative’ have been used in this Standard to define the application of the appendix to which they apply. A ‘normative’ appendix is an integral part of a Standard, whereas an ‘informative’ appendix is only for information and guidance.

## CONTENTS

	<i>Page</i>
<b>SECTION 1 SCOPE AND GENERAL</b>	
1.1 SCOPE.....	4
1.2 REFERENCED DOCUMENTS.....	4
1.3 DEFINITIONS.....	5
1.4 ILLUMINATION AND REFLECTORIZATION OF SIGNS.....	6
1.5 INSTALLATION OF SIGNS .....	6
<b>SECTION 2 REGULATORY CONTROL AND ROAD RULES</b>	
2.1 REGULATORY CONTROL .....	7
2.2 CONFORMITY WITH ROAD RULES.....	7
<b>SECTION 3 LINEAR PARKING CONTROL SIGNS</b>	
3.1 GENERAL REQUIREMENTS.....	8
3.2 BASIC DESIGN, COLOUR AND SIGN NUMBERING .....	8
3.3 PANEL COMPONENTS .....	12
3.4 SIGN LAYOUT.....	19
3.5 PANEL AND SIGN SIZES .....	21
<b>SECTION 4 CLEARWAYS</b>	
4.1 GENERAL.....	22
4.2 GUIDELINES.....	22
4.3 SIGNPOSTING OF CLEARWAYS .....	22
<b>SECTION 5 AREA PARKING CONTROL SIGNS</b>	
5.1 GENERAL.....	25
5.2 SIGN SIZE AND LAYOUT .....	25
5.3 SIGN APPLICATION .....	27
<b>SECTION 6 PARKING DIRECTION SIGNS</b>	
6.1 GENERAL.....	29
6.2 INFORMATION.....	29
6.3 SIGN DESIGN .....	29
<b>SECTION 7 PAVEMENT MARKINGS</b>	
7.1 DELINEATION OF PARKING SPACES .....	31
