

AS/NZS 5070.2:2008

Reconfirmed 2019

AS/NZS 5070.2:2008

Australian/New Zealand Standard™

**Siting and operation of  
radiocommunications facilities**

**Part 2: Guidelines for siting of  
radiocommunications facilities: VHF,  
UHF and SHF**

## **AS/NZS 5070.2:2008**

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee RC-006, Radiocommunications Equipment—General. It was approved on behalf of the Council of Standards Australia on 26 February 2008 and on behalf of the Council of Standards New Zealand on 7 March 2008.  
This Standard was published on 19 May 2008.

---

Australian Communications and Media Authority  
Australian Electrical and Electronic Manufacturers Association  
Australian Information Industry Association  
Civil Aviation Safety Authority  
Electromagnetic Technical Evaluation Committee (New Zealand)  
Free TV Australia  
Ministry of Economic Development (New Zealand)  
SingTel Optus Pty Limited  
Wireless Institute Australia

---

### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at [www.standards.com.au](http://www.standards.com.au) or Standards New Zealand web site at [www.standards.co.nz](http://www.standards.co.nz) and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

**RECONFIRMATION NOTICE**

Technical Committee RC-006 has reviewed the content of this publication and in accordance with Standards Australia procedures for reconfirmation, it has been determined that the publication is still valid and does not require change.

Certain documents referenced in the publication may have been amended since the original date of publication. Users are advised to ensure that they are using the latest versions of such documents as appropriate, unless advised otherwise in this Reconfirmation Notice.

Approved for reconfirmation in accordance with Standards Australia procedures for reconfirmation on 14 November 2018.

Approved for reconfirmation in New Zealand on behalf of the New Zealand Standards Approval Board on 08 March 2019.

The following are represented on Technical Committee RC-006:

AirServices Australia  
Australian Communications and Media Authority  
Australian Industry Group  
Australian Wireless Audio Group  
Civil Aviation Safety Authority  
Consumer Electronics Suppliers Association  
Electromagnetic Compatibility Society of Australia  
Electromagnetic Technical Evaluation Committee  
Engineers Australia  
Free TV Australia  
Ministry of Business, Innovation and Employment (NZ)  
Telecommunications Users Association of New Zealand  
Wireless Institute Australia
