## Australian/New Zealand Standard<sup>™</sup>

# Gypsum linings—Application and finishing

#### AS/NZS 2589:2007

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee BD-011, Interior Board Lining. It was approved on behalf of the Council of Standards Australia on 7 December 2007 and on behalf of the Council of Standards New Zealand on 30 November 2007. This Standard was published on 24 December 2007.

The following are represented on Committee BD-011:

Australian Chamber of Commerce and Industry Association of Wall and Ceiling Industries of New Zealand Certification Interests Federation of Wall and Ceiling Industries Australia and New Zealand Housing Industry Association Master Builders Australia National Association of Steel-Framed Housing Timber Development Association

#### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.standards.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

This Standard was issued in draft form for comment as DR 05304.

## Australian/New Zealand Standard<sup>™</sup>

# Gypsum linings—Application and finishing

Originated as AS 3589—1983 and in part as AS CA20—1950. Previous editions AS/NZS 2589.1:1997 and AS/NZS 2589.2:1997. AS/NZS 2589.1:1997 and AS/NZS 2589.2:1997 jointly revised, amalgamated and redesignated AS/NZS 2589:2007.

### PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee BD-011, Interior Board Lining, to supersede AS/NZS 2589.1:1997, *Gypsum linings in residential and light commercial construction—Application and finishing*, Part 1: *Gypsum plasterboard* and AS/NZS 2589.2:1997, Part 2: *Fibre-reinforced gypsum plaster*.

The objective of this Standard is to provide manufacturers, designers and users of gypsum linings with requirements for the application and finishing of such linings in residential and commercial construction applications. This Standard provides a reference for the building industry and specifiers, and a basic Standard for adoption in contracts.

This edition incorporates the following major changes to the previous editions:

- (a) The amalgamation of AS/NZS 2589.1:1997 and AS/NZS 2589.2:1997.
- (b) Inclusion of extensive design specification.
- (c) Inclusion of commercial construction.
- (d) Rationalization of the levels of finishes.
- (e) Reformatting to allow for ease of use.

A statement expressed in mandatory terms in a note to a table in the body of this Standard or in a 'normative' appendix is deemed to be a requirement of this Standard.

The terms 'normative' and 'informative' has been used in this Standard to define the application of the appendix to which they apply. A 'normative' appendix is an integral part of a Standard, whereas an 'informative' appendix is only for information and guidance.
