AS 1742.6:2014

AS 1742.6:2014

Manual of uniform traffic control devices

Part 6: Tourist and services signs

This Australian Standard® was prepared by Committee MS-012, Road Signs and Traffic Signals. It was approved on behalf of the Council of Standards Australia on 2 July 2014. This Standard was published on 19 August 2014.

The following are represented on Committee MS-012:

- ARRB Group
- Association of Consultants in Access Australia
- Australasian Railway Association
- Australian Automobile Association
- Australian Chamber of Commerce and Industry
- Australian Industry Group
- Australian Motorcycle Council
- Austroads (Representative from Department of Planning, Transport and Infrastructure, SA)
- Department of Lands and Planning, NT
- Department of Territory and Municipal Services, Australian Capital Territory
- Department of Transport and Main Roads, Qld
- Institute of Public Works Engineering Australia
- Main Roads Western Australia
- Roadmarking Industry Association of Australia
- Roads and Maritime Services, NSW
- VicRoads

Additional Interests:

- Australian Standing Committee on Tourism
 - National Tourist Signing Reference Group
-

This Standard was issued in draft form for comment as DR AS 1742.6.

Standards Australia wishes to acknowledge the participation of the expert individuals that contributed to the development of this Standard through their representation on the Committee and through the public comment period.

Keeping Standards up-to-date

Australian Standards® are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Australian Standards, drafts, amendments and new projects can be found by visiting www.standards.org.au

Standards Australia welcomes suggestions for improvements, and encourages readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.org.au, or write to Standards Australia, GPO Box 476, Sydney, NSW 2001.

PREFACE

This Standard was prepared by the Standards Australia Committee MS-012, Road Signs and Traffic Signals, to supersede AS 1742.6—2004.

The AS 1742 series comprises the following Standards.

AS

1742	Manual of uniform traffic control devices
1742.1	Part 1: General introduction and index of signs
1742.2	Part 2: Traffic control devices for general use
1742.3	Part 3: Traffic control devices for works on roads
1742.4	Part 4: Speed controls
1742.5	Part 5: Street name and community facility name signs
1742.6	Part 6: Tourist and services signs (this Standard)
1742.7	Part 7: Railway crossings
1742.9	Part 9: Bicycle facilities
1742.10	Part 10: Pedestrian control and protection
1742.11	Part 11: Parking controls
1742.12	Part 12: Bus, transit, tram and truck lanes
1742.13	Part 13: Local area traffic management
1742.14	Part 14: Traffic signals
1742.15	Part 15: Direction signs, information signs and route numbering

This edition of the Standard is a revision of the 2004 edition and includes input from the National Tourism Signing Reference Group, an advisory body to the Australian Standing Committee on Tourism. The principal changes to the Standard are as follows:

- (a) More definitive requirements for the signposting of tourist attractions from expressway type roads.
- (b) An enhanced list of tourist facility categories that can be signposted, including new symbols for heritage features, museums and whale watching.
- (c) Deletion of detail relating to tourist routes and ways, and the retention only of treatments for shorter tourist drives for which trailblazing by means of tourist route marker signs is appropriate.

The relationship between Australian Standards and publications produced by Austroads should be noted. The former provides specifications and procedures that ensure that products and services are safe and reliable, and consistently perform the way they are intended. The latter provides guidance documents that deal with the design, construction maintenance and operation of the road network. Austroads documents are also used by road authorities in New Zealand.

In cases of similar subject matter, this is dealt with across both sets of documents and each document aims to provide information that is consistent, complementary and supportive of the other.

The terms ‘normative’ and ‘informative’ have been used in this Standard to define the application of the appendix to which they apply. A ‘normative’ appendix is an integral part of a Standard, whereas an ‘informative’ appendix is only for information and guidance.

CONTENTS

	<i>Page</i>
SECTION 1 SCOPE AND GENERAL	
1.1 SCOPE.....	5
1.2 OBJECTIVE	5
1.3 REFERENCED DOCUMENTS	5
