

AS 2345—1992

Australian Standard®

**Dezincification resistance of
copper alloys**

This Australian Standard was prepared by Committee MT/14, Corrosion of Metals. It was approved on behalf of the Council of Standards Australia on 26 March 1992 and published on 15 June 1992.

The following interests are represented on Committee MT/14:

- Aluminium Development Council
- Australasian Corrosion Association
- Australian Gas Association
- Australian Institute of Steel Construction
- Australian Zinc Development Association
- Austroads
- Bureau of Steel Manufacturers of Australia
- Confederation of Australian Industry
- Department of Defence
- Electricity Supply Association of Australia
- Engineering and Water Supply Department, South Australia
- Railways of Australia Committee
- Standards Association of New Zealand
- State electrolysis committees
- Telecom Australia

Additional interests participating in preparation of Standard:

- Corrosion consultants
- Hunter Water Board
- Melbourne Water
- Product manufacturing organizations
- Water Board–Sydney–Illawarra–Blue Mountains
- Water Authority of Western Australia

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto. Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 91091.
