

AS 2117—1991

Australian Standard[®]

**Hose and hose assemblies for
petroleum and petroleum
products—Marine suction and
discharge**

[Title allocated by Defence Cataloguing Authority:
HOSE AND HOSE ASSEMBLIES, METALLIC AND
NON METALLIC (Petroleum and petroleum products,
suction and discharge) NSC 4720]

This Australian Standard was prepared by Committee RU/1, Industrial Hose. It was approved on behalf of the Council of Standards Australia on 22 September 1990 and published on 11 February 1991.

The following interests are represented on Committee RU/1:

Australian Gas Association
Australian Institute of Petroleum
Commercial Services Group (Government Supply) N.S.W.
Confederation of Australian Industry
Department of Minerals and Energy, N.S.W.
Plastics and Rubber Institute
Plastics Industry Association
Railways of Australia Committee
Water Board, Sydney

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 87106.
