**METHODS FOR THE  
CALIBRATION AND  
GRADING OF  
EXTENSOMETERS**

---

The following scientific, industrial and governmental organizations and departments were officially represented on the committee entrusted with the preparation of this standard:

Aluminium Development Council  
Associated Chambers of Manufactures of Australia  
Australian Institute of Metals  
Bureau of Steel Manufacturers of Australia  
Department of Manufacturing Industry  
Materials Research Laboratories—Department of Defence  
Metal Trades Industry Association of Australia  
National Association of Testing Authorities  
National Measurement Laboratory  
Railways of Australia Committee  
Society of Automotive Engineers—Australasia  
Universities

---

This standard, prepared by Committee MT/6, Mechanical Testing of Metals, was approved by the Metals Standards Board on behalf of the Council of the Standards Association of Australia on 18 June 1975, and was published on 1 May 1976.

---

**Review of Australian Standards.** To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

---

*This standard was issued in draft form for public review as DR 73062.*

**AS 1545—1976**

**Methods for the calibration and grading of extensometers**

---

**RECONFIRMATION NOTICE**

Technical Committee MT-009 has reviewed the content of this publication and in accordance with Standards Australia procedures for reconfirmation, it has been determined that the publication is still valid and does not require change.

Certain documents referenced in the publication may have been amended since the original date of publication. Users are advised to ensure that they are using the latest versions of such documents as appropriate, unless advised otherwise in this Reconfirmation Notice.

Approved for reconfirmation in accordance with Standards Australia procedures for reconfirmation on 20 March 2017.

The following are represented on Technical Committee MT-009:

Australasian Institute of Surface Finishing  
Australian Chamber of Commerce and Industry  
Australian Industry Group  
Australian Steel Institute  
Bureau of Steel Manufacturers of Australia  
Galvanizers Association of Australia  
Galvanizing Association of New Zealand  
New Zealand Metal Roofing Manufacturers
