## **AS/NZS 1660.2.1:1998**

---

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee EL/3, Electric Wires and Cables. It was approved on behalf of the Council of Standards Australia on 19 December 1997 and on behalf of the Council of Standards New Zealand on 5 December 1997. It was published on 5 March 1998.

---

The following interests are represented on Committee EL/3:

Australasian Railway Association  
Australian Electrical and Electronic Manufacturers Association  
Department of Defence, Australia  
Electrical regulatory authorities  
Electricity Supply Association of Australia  
Institution of Engineers, Australia  
Ministry of Commerce, New Zealand  
New Zealand Electrical Contractors Association  
New Zealand Electrical and Electronic Manufacturers Federation  
Office of Energy, N.S.W.  
Testing interests

---

### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Australia web site at [www.standards.com.au](http://www.standards.com.au) or Standards New Zealand web site at [www.standard.co.nz](http://www.standard.co.nz) and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia International or Standards New Zealand at the address shown on the back cover.

**RECONFIRMATION NOTICE**

Technical Committee EL-003 has reviewed the content of this publication and in accordance with Standards Australia procedures for reconfirmation, it has been determined that the publication is still valid and does not require change.

Certain documents referenced in the publication may have been amended since the original date of publication. Users are advised to ensure that they are using the latest versions of such documents as appropriate, unless advised otherwise in this Reconfirmation Notice.

Approved for reconfirmation in accordance with Standards Australia procedures for reconfirmation on 10 October 2016.

Approved for reconfirmation in New Zealand on behalf of the Standards Council of New Zealand on 13 December 2016.

The following are represented on Technical Committee EL-003:

Australian Cable Makers' Association  
Australian Industry Group  
Electrical Compliance Testing Association  
Electrical Regulatory Authorities Council  
National Electrical and Communications Association  
Queensland University of Technology

## NOTES

**AS/NZS 1660.2.1:1998**  
(Incorporating Amendment No. 1)

## Australian/New Zealand Standard™

### **Test methods for electric cables, cords and conductors**

### **Method 2.1: Insulation, extruded semi-conductive screens and non-metallic sheaths—Methods for general application**
