

AS 4623—2008

Reconfirmed 2025

AS 4623—2008

Australian Standard[®]

**Jointing compounds and materials for
use in gas pipe joints**

This Australian Standard® was prepared by Committee AG-013, Components used for Gas Appliances and Equipment. It was approved on behalf of the Council of Standards Australia on 16 June 2008.

This Standard was published on 30 June 2008.

The following are represented on Committee AG-013:

- Appliance and Component Testing
 - Association of Accredited Certification Bodies
 - Energy Networks Association
 - Engineers Australia
 - Gas Appliance Manufacturers Association of Australia
 - Gas Appliances and Services Association
 - Gas Association of New Zealand
 - Gas Technical Regulators Committee
 - LP Gas Association of New Zealand
 - LP Gas Australia
-

This Standard was issued in draft form for comment as DR 07300.

Standards Australia wishes to acknowledge the participation of the expert individuals that contributed to the development of this Standard through their representation on the Committee and through the public comment period.

Keeping Standards up-to-date

Australian Standards® are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Australian Standards, drafts, amendments and new projects can be found by visiting **www.standards.org.au**

Standards Australia welcomes suggestions for improvements, and encourages readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at **mail@standards.org.au**, or write to Standards Australia, GPO Box 476, Sydney, NSW 2001.
