

AS/NZS 2430.3.9:1997

Australian/New Zealand Standard[®]

Classification of hazardous areas

**Part 3.9: Examples of area
classification—Miscellaneous**

AS/NZS 2430.3.9:1997

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee MS/11, Classification of Hazardous Areas. It was approved on behalf of the Council of Standards Australia on 29 October 1997 and on behalf of the Council of Standards New Zealand on 24 October 1997. It was published on 5 December 1997.

The following interests are represented on Committee MS/11:

The Association of Consulting Engineers, Australia
Auckland Regional Chamber of Commerce
Australian Association of Certification Bodies
Australian Chamber of Commerce and Industry
Australian Chamber of Manufactures
Australian Electrical and Electronic Manufacturers Association
The Australian Gas Association
Australian Institute of Petroleum
Australian Liquefied Petroleum Gas Association
Australian Paint Manufacturers Federation
Department of Labour, New Zealand
Department of Mines and Energy, Qld
Electrical Supply Association of Australia
Gas Association of New Zealand
Institute of Electrical Inspectors, Australia
Institute of Instrumentation and Control, Australia
Institution of Professional Engineers, New Zealand
LPG Association of New Zealand
Ministry of Commerce, New Zealand
New South Wales Grain Corporation
New Zealand Association of Marine, Aviation and Power Engineers
The New Zealand Chemical Industry Council
The Royal Australian Chemical Institute
Shell New Zealand
Victorian Workcover Authority
WorkCover Authority of N.S.W.
Workplace Standards Authority (Tasmania)

Review of Standards. To keep abreast of progress in industry, Joint Australian/New Zealand Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Joint Standards and related publications will be found in the Standards Australia and Standards New Zealand Catalogue of Publications; this information is supplemented each month by the magazines 'The Australian Standard' and 'Standards New Zealand', which subscribing members receive, and which give details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Joint Standards, addressed to the head office of either Standards Australia or Standards New Zealand, are welcomed. Notification of any inaccuracy or ambiguity found in a Joint Australian/New Zealand Standard should be made without delay in order that the matter may be investigated and appropriate action taken.
