

SUPERSEDED BY:

AS/NZS 1660.2.3: 1998

AS 1660.2.3—1993

Australian Standard[®]

**Test methods for electric cables,
cords and conductors**

**Method 2.3: Insulation, extruded
semi-conductive screens and
non-metallic sheaths—Methods
specific to PVC and halogen free
thermoplastic compounds**

This Australian Standard was prepared by Committee EL/3, Electric Wires and Cables. It was approved on behalf of the Council of Standards Australia on 10 July 1993 and published on 11 October 1993.

The following interests are represented on Committee EL/3:

- Australian Electrical and Electronic Manufacturers Association
- Department of Defence
- Electrical Contractors Association of Australia
- Electrical regulatory authorities
- Electricity Supply Association of Australia
- Office of Energy, N.S.W.
- Railways of Australia Committee
- Testing interests

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.
