

Australian Standard[®]

**Earth-moving machinery—Off-the-road
wheels, rims and tyres—Maintenance
and repair**

**Part 1: Wheel assemblies and rim
assemblies**

This Australian Standard® was prepared by Committee ME-063, Earthmoving Equipment. It was approved on behalf of the Council of Standards Australia on 26 October 2007. This Standard was published on 23 November 2007.

The following are represented on Committee ME-063:

- AUSTROADS
 - Australian Industry Group
 - Construction and Mining Equipment Industry Group
 - Department of Defence
 - Department of Natural Resources and Mines, Qld
 - Department of Primary Industries and Fisheries, Qld
 - Department of Primary Industries, Mine Safety, NSW
 - Safety Institute of Australia
 - WorkCover New South Wales
-

This Standard was issued in draft form for comment as DR 06232.

Standards Australia wishes to acknowledge the participation of the expert individuals that contributed to the development of this Standard through their representation on the Committee and through the public comment period.

Keeping Standards up-to-date

Australian Standards® are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Australian Standards, drafts, amendments and new projects can be found by visiting **www.standards.org.au**

Standards Australia welcomes suggestions for improvements, and encourages readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at **mail@standards.org.au**, or write to Standards Australia, GPO Box 476, Sydney, NSW 2001.

AS 4457.1—2007

Australian Standard[®]

**Earth-moving machinery—Off-the-road
wheels, rims and tyres—Maintenance
and repair**

**Part 1: Wheel assemblies and rim
assemblies**

Originated as AS 4457—1997.
Revised and redesignated as AS 4457.1—2007.

PREFACE

This Standard was prepared by the Standards Australia Committee ME-063, Earthmoving Equipment, at the request of users of earthmoving equipment, particularly those involved in major mining operations, and is supported by the inspectorates of Queensland, New South Wales and Western Australia. These bodies have expressed their concern that wheels, rims and tyres for earthmoving equipment are being subjected to ever-increasing loads and forces. The origin of the forces is the larger, heavier trucks and payloads being introduced and the higher speeds these vehicles can achieve.

Where a wheel or a rim assembly has disintegrated, pieces of the rim or wheel assembly have been thrown for considerable distances. Fatalities and serious injuries have also occurred when correct procedures have not been followed. The release of large quantities of energy in an uncontrolled manner poses a risk to persons nearby and in order that this element of risk be minimized, some controls over the repair, maintenance and inspection of wheels and rim assemblies are considered necessary.

This Standard supersedes AS 4457—1997, *Earth-moving machinery—Off-highway rims and wheels—Maintenance and repair*, and includes revised information relating to tyre inflation pressure and takes into account individual or group site requirements.

The AS 4457 series of Standards comprises two parts as follows:

Part 1: Wheel assemblies and rim assemblies (this Standard)

Part 2: Tyres

The term ‘normative’ has been used in this Standard to define the appendix to which it applies. A ‘normative’ appendix is an integral part of a Standard.

CONTENTS

	<i>Page</i>
SECTION 1 SCOPE AND GENERAL	
1.1 SCOPE	4
1.2 OBJECTIVE	4
1.3 REFERENCED DOCUMENTS	4
1.4 DEFINITIONS	4
SECTION 2 GENERAL REQUIREMENTS	
2.1 DESIGN AND CONSTRUCTION OF REPAIRABLE PARTS	12
2.2 WELDING	12
2.3 IDENTIFICATION	12
SECTION 3 REMOVAL AND INSTALLATION	
3.1 GENERAL	13
3.2 REMOVAL AND DEMOUNT PROCEDURE	13
3.3 INSPECTION AND REPAIR	14
3.4 MOUNT AND FIT PROCEDURE	14
SECTION 4 EXAMINATION OF RIM AND WHEEL ASSEMBLIES	
4.1 GENERAL	15
4.2 IN-SERVICE VISUAL INSPECTION	15
4.3 PERIODIC TESTING	15
4.4 PREPARATION PRIOR TO TEST	15
4.5 INSPECTION REQUIREMENTS	15
SECTION 5 REPAIR	
5.1 GENERAL	17
5.2 ALLOWABLE REPAIRS	17
5.3 WELDING QUALIFICATIONS	17
5.4 STRESS RELIEVING	17
5.5 SURFACE TREATMENT	17
5.6 INSPECTION AND TESTING OF REPAIRS	18
5.7 MARKING AND REPORT	18
APPENDICES	
A ADDITIONAL REQUIREMENTS FOR MOUNTING AND DEMOUNTING	19
B CLASSIFICATION OF DEFECT	23
