

AS/NZS 1050.1:1996

Reconfirmed 2017

Australian/New Zealand Standard[®]

**Methods for the analysis of iron
and steel**

**Part 1: Sampling iron and steel
for chemical analysis**

AS/NZS 1050.1:1996

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee CH/10, Analysis of Metals. It was approved on behalf of the Council of Standards Australia on 20 December 1995 and on behalf of the Council of Standards New Zealand on 18 December 1995. It was published on 5 May 1996.

The following interests are represented on Committee CH/10:

Aluminium Development Council, Australia
Australasian Institute of Mining and Metallurgy
Australasian Railway Association
Australian Chamber of Manufactures
Australian Lead Development Association
Bureau of Steel Manufacturers of Australia
Copper Technical Data Centre, Australia
National Association of Testing Authorities, Australia
University of New South Wales

Additional interests participating in preparation of Standard:

Analytical laboratories
Steel manufacturers

Review of Standards. To keep abreast of progress in industry, Joint Australian/New Zealand Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Joint Standards and related publications will be found in the Standards Australia and Standards New Zealand Catalogue of Publications; this information is supplemented each month by the magazines 'The Australian Standard' and 'Standards New Zealand', which subscribing members receive, and which give details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Joint Standards, addressed to the head office of either Standards Australia or Standards New Zealand, are welcomed. Notification of any inaccuracy or ambiguity found in a Joint Australian/New Zealand Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 95092.
