

AS 3566—1988

Australian Standard[®]

**SCREWS—
SELF-DRILLING—
FOR THE BUILDING AND
CONSTRUCTION INDUSTRIES**

This Australian Standard was prepared by Committee ME/29, Fasteners. It was approved on behalf of the Council of the Standards Association of Australia on 3 August 1988 and published on 12 September 1988.

The following interests are represented on Committee ME/29:

Australian Furniture Industry Association
Bureau of Steel Manufacturers of Australia
Confederation of Australian Industry
Department of Defence
Electricity Supply Association of Australia
Fasteners Institute of Australia
Federal Chamber of Automotive Industries
Metal Trades Industry Association of Australia
Railways of Australia Committee
University of Sydney

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 86107.

PREFACE

This Standard was prepared by the Association's Committee on Fasteners at the request of the Fasteners Institute of Australia.

The types of screws covered by this Standard have achieved wide use in the building and construction industries and therefore the need for a Standard became apparent. One of the reasons for this request was the lack of accepted tests to which these products should be subjected. This lack of test procedures for the existing products is the main reason that the emphasis of this Standard is on performance.

Several classes of corrosion resistance have been nominated to satisfy various degrees of exposure.

© Copyright — STANDARDS AUSTRALIA

Users of Standards are reminded that copyright subsists in all Standards Australia publications and software. Except where the Copyright Act allows and except where provided for below no publications or software produced by Standards Australia may be reproduced, stored in a retrieval system in any form or transmitted by any means without prior permission in writing from Standards Australia. Permission may be conditional on an appropriate royalty payment. Requests for permission and information on commercial software royalties should be directed to the head office of Standards Australia.

Standards Australia will permit up to 10 percent of the technical content pages of a Standard to be copied for use exclusively in-house by purchasers of the Standard without payment of a royalty or advice to Standards Australia.

Standards Australia will also permit the inclusion of its copyright material in computer software programs for no royalty payment provided such programs are used exclusively in-house by the creators of the programs.

Care should be taken to ensure that material used is from the current edition of the Standard and that it is updated whenever the Standard is amended or revised. The number and date of the Standard should therefore be clearly identified.

The use of material in print form or in computer software programs to be used commercially, with or without payment, or in commercial contracts is subject to the payment of a royalty. This policy may be varied by Standards Australia at any time.

CONTENTS

	<i>Page</i>
SECTION 1. SCOPE AND GENERAL	
1.1 SCOPE	4
1.2 APPLICATION	4
1.3 REFERENCED DOCUMENTS	4
1.4 MATERIAL	4
1.5 CORROSION RESISTANCE	4
1.6 DIMENSIONS	4
1.7 TYPES OF THREADS	4
1.8 TYPES OF HEADS	4
1.9 HYDROGEN EMBRITTLEMENT	7
1.10 MARKING	7
1.11 PACKAGING	7
SECTION 2. SELF-DRILLING SCREWS FOR FIXING TO STEEL	
2.1 SCOPE OF SECTION	8
2.2 DESIGNATIONS	8
2.3 DIMENSIONS	8
2.4 TYPES OF HEADS	10
2.5 MECHANICAL PROPERTIES AND PERFORMANCE OF SELF- DRILLING SCREWS FOR STEEL	10
2.6 DRILLING AND THREADING CAPACITY	10
SECTION 3. SELF-DRILLING SCREWS FOR FIXING TO TIMBER	
3.1 SCOPE OF SECTION	13
3.2 DESIGNATIONS	13
3.3 DIMENSIONS	13
3.4 TYPES OF HEADS	13
3.5 MECHANICAL PROPERTIES AND PERFORMANCE OF SELF- DRILLING SCREWS FOR TIMBER	13
SECTION 4. SELF-DRILLING SCREWS FOR FIXING PLASTER- BOARD TO STEEL	
4.1 SCOPE OF SECTION	16
4.2 DESIGNATIONS	16
4.3 DIMENSIONS	16
4.4 TYPE OF HEAD	16
4.5 MECHANICAL PROPERTIES AND PERFORMANCE OF SELF- DRILLING SCREWS FOR FIXING PLASTERBOARD TO STEEL	16
APPENDICES	
A DRILLING AND DRIVING TEST FOR SELF-DRILLING SCREWS FOR STEEL AND FOR FIXING PLASTERBOARD TO STEEL ...	19
B WITHDRAWAL TEST FOR SELF-DRILLING SCREWS FOR STEEL AND FOR FIXING PLASTERBOARD TO STEEL	21
C SCREW STRENGTH TEST FOR SELF-DRILLING SCREWS	23
D WITHDRAWAL TEST FOR SELF-DRILLING SCREWS FOR TIMBER	24
E TEST FOR TORSIONAL STRENGTH	25
F DUCTILITY TEST	26
G HYDROGEN EMBRITTLEMENT TEST	27
H CORROSION RESISTANCE TEST	29
I INFORMATION TO BE SUPPLIED WITH AN ENQUIRY OR ORDER	30
J DETERMINATION OF COMPLIANCE OF A LOT	31
