

AS 1308—1987

Australian Standard[®]

**ELECTRIC WATER HEATERS—
THERMOSTATS AND
THERMAL CUTOUTS**

This Australian Standard was prepared by Committee EL/20, Electric Water Heating Appliances. It was approved on behalf of the Council of the Standards Association of Australia on 13 April 1987 and published on 1 June 1987.

The following interests are represented on Committee EL/20:

- Australian Consumers Association
- Australian Electrical and Electronic Manufacturers' Association
- Australian Gas Association
- Confederation of Australian Industry
- Electricity Supply Association of Australia
- Engineering and Water Supply Department, South Australia

Representatives of manufacturers and suppliers of thermostats and thermal cutouts also participated in the drafting of this Standard.

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 86169.
