Amendment 1 - August 1995

SUPERSEDED BY:

AS 4037-1999

AS 4037—1992

Australian Standard®

**Boilers and pressure vessels—
Examination and testing**

STANDARDS AUSTRALIA

This Australian Standard was prepared by Committee ME/1, Boilers and Pressure Vessels. It was approved on behalf of the Council of Standards Australia on 12 May 1992 and published on 17 August 1992.

The following interests are represented on Committee ME/1:

ACT Occupational Health and Safety Office
Aluminium Development Council
Australian Compressed Air and Mining Equipment Institute
Australian Institute for Non-destructive Testing
Australian Institute of Energy
Australian Institute of Petroleum
Australian Liquefied Petroleum Gas Association
Australian Sugar Milling Council
Australian Valve Manufacturers Association
Boiler and Pressure Vessel Manufacturers Association of Australia
Bureau of Steel Manufacturers of Australia
Confederation of Australian Industry
Department of Defence
Department of Employment, Industrial Relations and Training, Tas.
Department of Employment, Vocational Education, Training and Industrial Relations, Qld
Department of Labour, S.A.
Department of Occupational Health, Safety and Welfare, W.A.
Electricity Supply Association of Australia
Institute of Metals and Materials, Australasia
Institution of Engineers, Australia
Insurance Council of Australia
Metal Trades Industry Association of Australia
National Association of Testing Authorities, Australia
Occupational Health and Safety Authority, Vic.
Railways of Australia Committee
Society of Mechanical Engineers of Australasia
Welding Technology Institute of Australia
WorkCover Authority, N.S.W.
Work Health Authority, N.T.

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

PREFACE

This Standard was prepared by the Standards Australia Committee on Boilers and Unfired Pressure Vessels as part of a new arrangement of the SAA Boiler Code. It is one of the core documents which form this Code; and is intended to unify and revise the requirements for the non-destructive examination methods of test and the qualification of non-destructive examination personnel, which are currently specified in AS 1210, AS 1228, AS 1797 and AS 4041.

In this way misunderstanding, cost and delay in non-destructive examination can be reduced and safety can be improved. It should avoid unnecessary duplication of testing and promote greater confidence in reciprocal acceptance of approved procedures.

This Standard is based largely on AS 1210, *SAA Unfired Pressure Vessels Code*, with due allowance for practices or requirements of AS 1228, *Boilers—Water-tube*, AS 1797, *Boilers—Fire-tube, shell and miscellaneous*, and AS 4041, *Pressure piping*.

Requirements have been formulated with a view to maximum compatibility with recognized International Standards and for a 'user friendly' presentation.

Statements referred in mandatory terms in notes to tables and figures are deemed to be requirements of this Standard.

© Copyright — STANDARDS AUSTRALIA

Users of Standards are reminded that copyright subsists in all Standards Australia publications and software. Except where the Copyright Act allows and except where provided for below no publications or software produced by Standards Australia may be reproduced, stored in a retrieval system in any form or transmitted by any means without prior permission in writing from Standards Australia. Permission may be conditional on an appropriate royalty payment. Requests for permission and information on commercial software royalties should be directed to the head office of Standards Australia.

Standards Australia will permit up to 10 percent of the technical content pages of a Standard to be copied for use exclusively in-house by purchasers of the Standard without payment of a royalty or advice to Standards Australia.

Standards Australia will also permit the inclusion of its copyright material in computer software programs for no royalty payment provided such programs are used exclusively in-house by the creators of the programs.

Care should be taken to ensure that material used is from the current edition of the Standard and that it is updated whenever the Standard is amended or revised. The number and date of the Standard should therefore be clearly identified.

The use of material in print form or in computer software programs to be used commercially, with or without payment, or in commercial contracts is subject to the payment of a royalty. This policy may be varied by Standards Australia at any time.
