

AS 3637.1—2005
(Incorporating Amendment No. 1)
Reconfirmed 2017

AS 3637.1—2005

Australian Standard[®]

**Underground mining—Winding
suspension equipment**

Part 1: General requirements

This Australian Standard® was prepared by Committee ME-018, Mining Equipment. It was approved on behalf of the Council of Standards Australia on 11 May 2005. This Standard was published on 11 November 2005.

The following are represented on Committee ME-018:

- Australian Chamber of Commerce and Industry
 - Australian Coal Association
 - Australian Industry Group
 - Department of Industry and Resources W.A.
 - Department of Labour New Zealand
 - Department of Mineral Resources N.S.W.
 - Department of Natural Resources and Mines (Qld)
 - Engineers Australia
 - South Australian Chamber of Mines and Energy
-

This Standard was issued in draft form for comment as DR 05062.

Standards Australia wishes to acknowledge the participation of the expert individuals that contributed to the development of this Standard through their representation on the Committee and through the public comment period.

Keeping Standards up-to-date

Australian Standards® are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Australian Standards, drafts, amendments and new projects can be found by visiting **www.standards.org.au**

Standards Australia welcomes suggestions for improvements, and encourages readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at **mail@standards.org.au**, or write to Standards Australia, GPO Box 476, Sydney, NSW 2001.
