

AS 3850.1—1990

Australian Standard[®]

**Tilt-up concrete and precast
concrete elements for use in
buildings**

Part 1: Safety requirements

This Australian Standard was prepared by Committee BD/66, Tilt-up Construction. It was approved on behalf of the Council of Standards Australia on 6 August 1990 and published on 12 November 1990.

The following interests are represented on Committee BD/66:

Association of Consulting Engineers of Australia
Australian Federation of Construction Contracts
Australian Institute of Building Surveyors
Building Workers Industrial Union
Cement and Concrete Association of Australia
Concrete Institute of Australia
Crane Industry Council of Australia
Department of Employment, Vocational Education, Training and Industrial
Relations, Queensland
Department of Labour, Victoria
Federated Engine Drivers and Firemens Association
Master Builders Construction and Housing Association, Australia
Precast Concrete Manufacturers Association of New South Wales
Precast Concrete Manufacturers Association of Victoria
Steel Reinforcement Institute of Australia
Tilt-up Construction Contractors Association of Australia
Tilt-up Construction Association of Queensland
Workcover Authority, New South Wales

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This is a free preview. Purchase the entire publication at the link below:
