

Australian Standard[®]

**Refined petroleum products—Vehicle
bottom loading and vapour recovery**

This Australian Standard® was prepared by Committee ME-057, Road Tank Vehicles for Dangerous Goods. It was approved on behalf of the Council of Standards Australia on 17 March 2009.

This Standard was published on 22 April 2009.

The following are represented on Committee ME-057:

- Air Liquide Australia
 - Australian Chamber of Commerce and Industry
 - Australian Industry Group
 - Australian Institute of Petroleum
 - Bitumen Users Group
 - Department of Consumer and Employment Protection, WA
 - Department of the Premier and Cabinet, SA
 - LPG Australia
 - National Bulk Tanker Association
 - Petroleum Industry Contractors Association
 - Plastics and Chemicals Industries Association
 - Queensland Transport
 - Victorian WorkCover Authority
-

This Standard was issued in draft form for comment as DR 08217.

Standards Australia wishes to acknowledge the participation of the expert individuals that contributed to the development of this Standard through their representation on the Committee and through the public comment period.

Keeping Standards up-to-date

Australian Standards® are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Australian Standards, drafts, amendments and new projects can be found by visiting **www.standards.org.au**

Standards Australia welcomes suggestions for improvements, and encourages readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at **mail@standards.org.au**, or write to Standards Australia, GPO Box 476, Sydney, NSW 2001.
