

AS 2452.1—1982

Australian Standard[®]

**NON-DESTRUCTIVE TESTING—
DETERMINATION OF THICKNESS**

**Part 1—DETERMINATION OF
WALL THICKNESS OF
PIPE BY THE USE OF
RADIOGRAPHY**

This Australian standard was prepared by Committee MT/7, Non-destructive Testing of Metals and Materials. It was approved on behalf of the Council of the Standards Association of Australia on 18 May 1982 and published on 11 October 1982.

The following interests were represented on the committee responsible for the preparation of this standard:

Australian Atomic Energy Commission
Australian Gas Association
Australian Institute for Non-destructive Testing
Australian Pipeline Industry Association
Australian Welding Institute
Bureau of Steel Manufacturers of Australia
Commonwealth Aircraft Corporation
Confederation of Australian Industry
Department of Defence
Department of Industrial Relations, N.S.W.
Department of Labour and Industry, Vic.
Electricity Supply Association of Australia
Institute of Australian Foundrymen
Metal Trades Industries Association of Australia
National Association of Testing Authorities
Pipeline Authority
Railways of Australia Committee
Society of Automotive Engineers—Australasia

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

First published 1982

This standard was issued in draft form for comment as DR 80122.
