

AS 3111—1994

Australian Standard[®]

**Approval and test specification—
Miniature overcurrent circuit-
breakers**

This Australian Standard was prepared by Committee EL/4. It was approved on behalf of the Council of Standards Australia on 11 March 1994 and published on 16 May 1994.

The following interests are represented on Committee EL/4:

Australian Chamber of Commerce and Industry
Australian Electrical and Electronic Manufacturers Association
Consumer Electronics Suppliers Association, Australia
Electricity Supply Association of Australia
Ministry of Commerce, New Zealand
National Electrical Contractors Association of Australia
New Zealand Manufacturers Federation
Railways of Australia Committee
Regulatory authorities (electrical)
The Plastics Industry Association, Australia

Review of Australian Standards. *To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.*

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.
