Commercial Refrigeration Manufacturers Association of Australia
Institution of Engineers Australia
Institution of Refrigeration Heating & Air-conditioning Engineers, New Zealand
Metal Trades Industry Association of Australia
Ministry of Commerce, New Zealand
Motor Vehicle Repair Industry Council, Australia
Office of Fair Trading and Business Affairs, Vic.
Refrigeration & Air Conditioning Companies Association, New Zealand
Vehicle Air-conditioning Specialists of Australia
WorkCover N.S.W.

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Australia web site at www.standards.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia International or Standards New Zealand at the address shown on the back cover.
