

AS/NZS 4766:2006
(Incorporating Amendment No. 1)

AS/NZS 4766:2006

Australian/New Zealand Standard™

**Polyethylene storage tanks for water
and chemicals**

AS/NZS 4766:2006

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee PL-046, Polyethylene Storage Tanks. It was approved on behalf of the Council of Standards Australia on 7 June 2006 and on behalf of the Council of Standards New Zealand on 16 June 2006.

This Standard was published on 6 July 2006.

The following are represented on Committee PL-046:

Association of Rotational Moulders (Australasia)
Australian Industry Group
Institute of Materials Engineering Australasia
Water Services Association of Australia

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.saiglobal.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee PL-046, Polyethylene Storage Tanks.

This Standard incorporates Amendment No. 1 (June 2010). The changes required by the Amendment are indicated in the text by a marginal bar and amendment number against the clause, note, table, figure or part thereof affected.

The design of a tank, its fittings and accessories should consider long-term fitness for purpose including service environment and decrease in physical properties of the material due to environmental effects.

The terms ‘normative’ and ‘informative’ have been used in this Standard to define the application of the Appendix to which they apply. A ‘normative’ appendix is an integral part of a Standard, whereas an ‘informative’ appendix is only for information and guidance.

Statements expressed in mandatory terms in Notes to Tables and Figures are deemed to be requirements of this Standard. Notes to text are for information and guidance only.

CONTENTS

	<i>Page</i>
1 SCOPE AND LIMITATIONS	4
2 OBJECTIVE	4
3 REFERENCED DOCUMENTS.....	5
4 DEFINITIONS.....	6
5 MATERIALS.....	6
6 DESIGN.....	9
7 DIMENSIONS AND TOLERANCES	11
8 TANK CAPACITY.....	11
9 FITTINGS.....	11
