AS 1735.4—1986 (Incorporating Amendment Nos 1 and 2)

# Australian Standard™

**SAA Lift Code** 

Part 4: Service lifts—Power operated

This Australian Standard was prepared by Committee ME/4, Lift Installations. It was approved on behalf of the Council of Standards Australia on 12 February 1986 and published on 7 April 1986.

The following interests are represented on Committee ME/4:

Association of Consulting Engineers Australia

Association of Independent Lift Companies

Australian Chamber of Commerce

Australian Uniform Building Regulations Co-ordinating Council

Board of Fire Commissioners of New South Wales

Building Owners and Managers Association of Australia Limited

Confederation of Australian Industry

Department of Employment and Industrial Affairs, Qld

Department of Employment and Industrial Affairs, Vic.

Department of Housing and Construction

Department of Industrial Relations, N.S.W.

Department of Labour, S.A.

Department of Labour and Industry, Tas.

Department of Mines and Energy, N.T.

Department of Occupational Health, Safety and Welfare, W.A.

Department of Public Works, N.S.W.

Department of Territories

Institution of Engineers, Australia

Insurance Council of Australia

Lift Manufacturers Association of Australia Limited

Metal Trades Industry Association of Australia

Royal Australian Institute of Architects

### Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about Standards can be found by visiting the Standards Australia web site at www.standards.com.au and looking up the relevant Standard in the on-line catalogue.

Alternatively, the printed Catalogue provides information current at 1 January each year, and the monthly magazine, *The Australian Standard*, has a full listing of revisions and amendments published each month.

We also welcome suggestions for the improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.com.au, or write to the Chief Executive, Standards Australia International Ltd, PO Box 1055, Strathfield, NSW 2135.

AS 1735.4—1986 (Incorporating Amendment Nos 1 and 2)

# Australian Standard™

## **PREFACE**

This edition of this standard was prepared by the Association's Committee on Lift Installations, to supersede AS 1735, Part 4—1982, Power-operated Service Lifts.

This Standard incorporates Amendment Nos. 1 (July 1989) and 2 (June 2000). The changes required by the Amendments are indicated in the text by a marginal bar and amendment number against the clause, note, table, figure, or part thereof affected.

This edition includes the following technical changes:

- (a) Clause 5.1 extends the access dimension to 750 mm where an effective standing surface is provided for maintenance of service lifts.
- (b) Clause 26.1.3(a)(ii) has been redrafted to clarify its intent.

Other changes of an editorial nature have been made to bring the standard into line with current SAA policy.

AS 1735.4—1986

## **CONTENTS**

3

		Page
SECTION	1. Scope and General	
1.1	Scope	8
1.2	Application	
1.3	Referenced Documents	
SECTION		
2.1	Classification	
2.2	Types	9
SECTION	3. Speed, Rated Load, and Dimensions	
3.1	Class 1 Service Lifts	9
3.2	Class 2 Service Lifts	9
