

AS 1171—1998

Reconfirmed 2022

Australian Standard™

**Non-destructive testing—
Magnetic particle testing
of ferromagnetic products,
components and structures**

This Australian Standard was prepared by Committee MT/7, Non-destructive Testing of Metals and Materials. It was approved on behalf of the Council of Standards Australia on 29 May 1998 and published on 5 September 1998.

The following interests are represented on Committee MT/7:

Australasian Railway Association
Australian Aerospace Non-destructive Testing Committee
Australian Institute for Non-Destructive Testing
Australian Nuclear Science and Technology Organisation
Australian Pipeline Industry Association
Bureau of Steel Manufacturers of Australia
Electricity Supply Association of Australia
Industrial Research Limited New Zealand
Institution of Engineers Australia
Metal Trades Industry Association of Australia
National Association of Testing Authorities, Australia
New Zealand Non-destructive Testing Association
Society of Automotive Engineers, Australasia
Victorian WorkCover Authority
Welding Technology Institute of Australia
WorkCover New South Wales

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

RECONFIRMATION

OF

AS 1171—1998

**Non-destructive testing — Magnetic particle testing of ferromagnetic products,
components and structures**

RECONFIRMATION NOTICE

Technical Committee MT-007 has reviewed the content of this publication and in accordance with Standards Australia procedures for reconfirmation, it has been determined that the publication is still valid and does not require change.

Certain documents referenced in the publication may have been amended since the original date of publication. Users are advised to ensure that they are using the latest versions of such documents as appropriate, unless advised otherwise in this Reconfirmation Notice.

Approved for reconfirmation in accordance with Standards Australia procedures for reconfirmation on 12 July 2022.

The following are represented on Technical Committee MT-007:

Australasian Thermographers Association
Australian Industry Group
Australian Institute for Non-Destructive Testing
Australian Nuclear Science & Technology Organisation
Austroads Limited
Engineers Australia
Institute of Electrical Inspectors
Materials Australia
National Aerospace Non-Destructive Testing Board of Australia
National Association of Testing Authorities Australia
New Zealand Defence Force
New Zealand Non-Destructive Testing Association
Weld Australia
